

Direct-Temp® for Multi-Fuel KITS

Selkirk has put together 3 DT-M kits to get your project done . . . We have taken the guess work out of installation by putting the most common parts for each installation all in one box. These 3 kits represent the most common installations. Simply decide which of these best suits your needs, then pick up your DT-M lengths and if required the proper roof flashing.

Up & Out Kit: - 3" = 3DTM-UK or 4" = 4DTM-UK
